Estimate Details

service: We will be providing handyman services to install a carport canopy shelter at your location, ensuring a safe and sturdy structure to protect your vehicle from the elements.

Our technician will arrive at your site and begin by preparing the area for installation, then assemble and erect the 12 ft. wide by 20 ft. deep galvanized steel carport car canopy shelter, secure it to the ground, and ensure all connections are tightened and stable, and finally conduct a thorough inspection to guarantee the structure is level and securely fastened.

Labor and materials included. This estimate covers labor, service fee, all materials and supplies for the installation, van stock supplies (shop consumables), and applicable fees.

Thank you for allowing Summit Home Services the opportunity to earn your business. Your estimate is attached.

Summit Home Services works on a project basis; the actual final price could be more or less than the price estimated depending on the unique characteristics of your project(s). Estimates are not a contract or guaranteed price. This estimate is based on the information gathered and is subject to change.

Estimate of work is based on what can be reasonably viewed from consultation. Unforeseen issues may arise during the completion of work. If an issue should arise, Summit Home Services will inform the customer of the issue and possible solutions. Any additional work or change orders will be discussed with the homeowner and reviewed for approval of cost. Permit fees are estimated and adjust to actual jurisdiction cost at invoicing.

Summit Home Services accepts checks, cash, and major credit cards (credit cards add an additional 3% fee). All payments are due at the end of each day unless other arrangements have been made prior to starting the job.

Best regards,
Summit Home Services
